ENHANCE YOURSELF WITH Permanent Cosmetics

There are two different methods that can be used: the *Neavean Digital* instrument method or the *Soft Tap* method. Each method gently introduces color into the skin. Yes, this is a form of tattooing... using sterilized needle/pens designed for your safety and our comfort.

- **For Eyebrows**... Tiny strokes of pigment are implanted into the skin and appear to make it look as natural as hair.
- **For Eyeliner**... Subtle shadowing in the lash line, or bolder line enhances the lashes, or create a soft smudge look with a soft accent color.
- **Lip Liner-Blending**... This procedure can SUBTLY APPEAR to reshape or change the size of lips as well as enhance the color.
- **Scar Camouflage**... Colors can be mixed to match the skin. Pigment is implanted into the scarred tissue, dramatically minimizing the scar, in some cases, it seems to disappear.

Permanent Cosmetics

can take a few procedures to perfect. The first initial appointment establishes the foundation, a second followup appointment is required in 14 - 30 days. This evaluation us lets us know what details are needed to perfect.

Are you tired of putting on make-up every morning?

Are your eyebrows missing / or are you just seeking the asymmetry correction of facial features?

Has it become difficult to see where to put your line? ... due to your eyewear getting in the way? Or are your lines straight on one eye and curved on the other? Or by the end of the day has your bottom liner color rubbed off onto your cheek? Especially oily skin types.

Does your lipstick bleed into your skin?
Or just get talked off?

Advantages of Permanent Cosmetics:

- **Enhances natural beauty**
- **Conveniences**
- **Minimizes stretching of the skin**
- **Can enhance symmetry of the face**
- **Can promote confidence**
- **Little or no pain**
- **Appearance Lasts 3-7 Years**

- **A second appointment may be needed to perfect your desired look.**
- **The upmost professional care will be given.**
- **Cleanliness and sanitation taken very seriously.**
- **Your complete medical honesty is required (confidential).**
- **Before and after photographs required (insurance purposes) (confidential).**

How to get Started!

The first visit of the permanent cosmetic process is the **Saturation Visit**. The second visit, 3 weeks later, is known as the **Focus Visit**. As their names imply, the **Saturation Visit** accomplishes the basic design and color saturation; and the **Focus Visit** addresses perfection by focusing on balance, symmetry and detail of the healed result. A procedure may require one or even two Focus visits. (Lips often require 2 Focus visits.) There is no charge for the Focus visits as long as they are completed within 45 days of the previous visit. A Focus visit 'no show' will forfeit all additional Focus visits and will result in a charge of \$100 per visit. If 45 days have passed since the previous Focus visit, the standard **one year touch up fee** of \$150 will apply.
